

15th May 2016

To whom it may concern,

On behalf of the Chairman, Directors and Team of the Lino Spiteri Foundation, it is with great pleasure that we endorse the initiative of the Malta Employers Association to create the – ‘MEA EQUIP – Equipping SME’s for a more diverse, equal and inclusive labour force’ project.

The LSF is striving to create an inclusive workforce to strengthen inclusion in Malta and forward the independence of persons with a disability and mental health problems. We aim to create an inclusive setting for gainful work and encourage any activity that opens doors for more jobs for persons with a disability.

Whilst we work closely with the ETC to provide the necessary training for our clients, we also see the need for support to SMEs to enable them to be better equipped to recruit and sustain the employment of persons with different abilities and potential. We believe that everyone has ability, and we need to create the right environment and support structures to enable this.

We are keen to see this projects’ evolution,

Regards,

Nathan Farrugia
Executive Director
